

We are a globally successful technology company based in the Zurich Oberland. We develop, produce, market and maintain high-quality sensor systems and solutions for the textile industry. With our measurement and information systems, we guarantee the highest quality in global textile production.

In order to actively drive our growth in international markets, we are filling the following position as Replacement in the **research and development department** at our headquarters in **Wetzikon/Zurich**:

## Software Engineer (m/f/d) 100%

At Loepfe, you will play a key role in the further development of our products for the textile market. Your active collaboration with colleagues from application technology, sensor and electronics development makes the role exciting and very varied.

### Your new role

- development and maintenance of desktop and web applications, including CI/CD pipelines and infrastructure
- coordination of the implementation, testing and releasing activities and of the collaboration with our external software partners
- collaboration with the product management for refining specifications and for conceiving new functionalities
- third-level support of our software products

### Your profile

- a degree in computer science, software engineering, electrical engineering, or a similar field (ETH/Uni/FH)
- 3+ years professional experience in backend (.NET and C#) and in frontend development (WPF and Angular)
- strong communication and project management skills and the ability to gather and convey effectively complex information to all stakeholders
- very good analytical and problem-solving skills
- fluent in English both orally and written, knowledge of German is a plus

### Your perspective

- Future-oriented organization with an open, family-oriented corporate culture and an exciting working environment with very experienced, committed and team-oriented colleagues
- Freedom to work independently with flat hierarchies and short decision-making paths as well as opportunities to help shape the company
- Comprehensive training, varied tasks and fun in the team are very important
- Attractive overall package with 25 days' annual leave and additional catch-up time for bridging days, flexible working hours, home office, above-average employment conditions and other employee benefits
- Attractive location (Pfäffikersee recreation area) and easy accessibility by public transport and car with free parking

### Are you excited about this role?

We look forward to receiving your motivation letter along with your complete application documents in PDF format only, by e-mail to [thomas.schlegel@loepfe.com](mailto:thomas.schlegel@loepfe.com).
